

Mortgage & Protection Planning

Guiding you through the mortgage & protection maze

Borrow & protect with Peritum's help!

Peritum Wealth provides a full whole of market mortgage offering for clients needing just mortgage advice.

We work with established companies to cover both private and business properties.

Not only do we ensure we have brokered the best deal possible on your behalf, we are also happy to act as intermediaries with solicitors and other relevant third parties.

We aim to make the purchase or remortgage of your property as smooth as possible.

Protect your finances

Financial products are sometimes at their most useful when they are protecting our families, our incomes or our property.

Whilst insuring ourselves against an undesirable event such as sickness or even death may not be a pleasant thing to think about, the benefit of being able to set financial issues aside at emotionally difficult times cannot be overlooked.

We can help you decide which of the many different ways to protect your family and your standard of living will suit you best.

As a mortgage is secured against your home & it could be repossessed if you do not keep up the mortgage repayments.
